

# Gabrielle's ADAPTATION NOTES

- What is currently happening?

*Maria is having trouble with arrival time. She needs constant verbal reminders of what to do and cannot seem to follow along with the other children.*

- What would you like to see happen?

*I want her to be independent with this routine so we can be attentive and greet all the children coming in the door.*

- How can we change the environment?

*Rearrange the cubbies to put Maria's first and keep her chair at the same table .*

- How can we change the activity?

- How can we change the materials?

*Add visual supports to the cubby and chair.*

- How can we change the requirements or instructions?

- How can we provide assistance?

*Have a peer help Maria to find her cubby and chair.*

- After you have made the changes, what is currently happening?
