

Spencer's ADAPTATION NOTES

- What is currently happening?

Children have to wait for meal to be served and have a hard time waiting. They get in and out of chairs, touch each other and it's very loud.

- What would you like to see happen?

I want the room to be quiet and calm. I need something for them to engage in at the tables.

- How can we change the environment?

Turn down the lights and play soft music while the children are waiting.

- How can we change the activity?

Make bins of books for the children to look at while they are waiting.

- How can we change the materials?

Give the children an appetizer to eat while waiting.

- How can we change the requirements or instructions?

- How can we provide assistance?

- After you have made the changes, what is currently happening?
